

REMARKS

The proposed amendments to the claims do not introduce new matter but merely correct typographical errors introduced by the Examiner's amendment to claims 49, 53, and 189. The Examiner's amendment to claim 49 did not underline the "the" before "[an]" to indicate an insertion of text. The foregoing amendment shows that "the" is inserted between "comprises" and "amino acid." The Examiner's amendment to claim 53 misspelled "N,N-dimethylformamide," which the foregoing amendment corrects. The amendment also corrects the misspelling of word "polynucleotide" and removes a hyphen that was introduced by the Examiner's amendment to claim 189. Entry of these amendments is respectfully requested.

Respectfully submitted,
